

Sensorex Smart Aqua Meter **(****)** **as a leading company** **from USA** in sensor technology introduces a new product Smart Sensor Aqua meter, **SAM-1** **SMART AQUA METER** from **SENSOREX** turns your smart phone or tablet into a powerful and convenient pH, ORP or conductivity meter. Simply plug the SAM-1 into the audio jack of your smart phone or tablet then plug in the smart sensor and you are ready to take accurate readings. Sensor is auto-recognized and calibration data read from the smart sensor. Measure samples in the lab, field or plant and share readings via e-mail. Readings can be identified by unique name or GPS location. Download readings as .csv files for use in spreadsheets or for record retention More sensor input types will be available in the future with seamless software updates. SAM-1.

The SAM-1 is language aware and supports several languages. The IOS software will release March 1, 2014 and Android version will be available May 1, 2014. To learn more visit our SAM-1, [www.SmartAquaMeter.com](http://www.smartaquameter.com/)
